RT-PL 82

Electric Plane

With an extremely large rebate depth of up to 18 mm and a chip depth of 3 mm, the electric plane offers impressive performance for fast and efficient working.

Its ergonomic, practically-oriented design has many useful features. Chips, for example, can be ejected to the right or the left and a spare blade with tool is stored directly with the unit in the blade and tool depot. The solid aluminum soleplate guarantees a long service life and attests to the high quality of the electric plane.

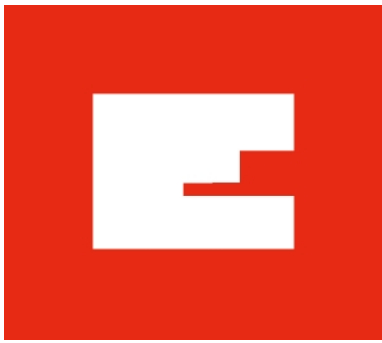

An automatic blade protection and comfortable soft handle provide optimal safety in demanding situations. Storing the tool is easy and space saving, thanks to the practical cable clip.

Features

- Automatic blade protection
- Blade and tool depot (incl. spare knife)
- Large knife wave for ideal working results
- Carbide planer knife (reversible knife)
- Aluminum planer plate
- Chipping throw-off adapter (Chip throw-off left or right)
- Parallel guide and rebate depth stop
- Cable clip for fixation of the wound up cable
- Soft grip
